Screw × 4 YPbPr cable × 1 AV INPUT Cable × 1
Installing the Stand

NOTES

- The TV screen is very fragile, and must be protected at all times when removing the base stand. Be sure that no hard or sharp object, or anything that could scratch or damage the screen, come into contact with it. DO NOT exert pressure on the front of the TV at any time because the screen could crack.
- For tabletop use, the TV must be attached to the provided stand as shown on this page.
- Product images are only for reference, actual product may vary in appearance.

WARNING

Be sure to disconnect the AC power cord before installing a stand or wall-mount brackets.

CAUTION

Carefully place your TV facedown on a soft, cushioned surface to prevent damage to the TV or scratching to the screen.

Follow the illustrations and textual instructions below to complete the installation steps:
1. Attach the stand to the TV set as shown in the picture.
2. Use the screws to fix the stand tightly.

32" Screws: (ST4 x 12F) x 4
40" Screws: (ST4 x 14F) x 4
NOTES

- The Picture is Only for Reference.
- Powering on the TV requires several seconds to load program. Do not rapidly turn the TV off as it may cause the TV to work abnormally.

NOTES

- The Picture is Only for Reference.

- Check the jacks for position and type before making any connections. Loose connections can result in image or color problems. Make sure that all connections are tight and secure.

- Not all A/V devices have the ability to connect to a TV, please refer to the user’s manual of your A/V device for compatibility and connections procedure.

- Before connecting external equipment, remove the mains plug from the wall socket. This may cause electric shock.

- ANT2 Jack supports power supply for satellite antenna (DC13/18V = 0.5A max.)
Making Connections

**ANT1**  Connect an outdoor VHF/UHF antenna or cable.

Connect an HDMI cable from an external A/V equipment. Some devices such as DVD player require HDMI signal to be set to output in the device's settings. Please consult your device user manual for instructions. Please note that the HDMI connector provides both video and audio signals, it's not necessary to connect an audio cable.

1. Press [Source] button, when the list of Input Source appears, press [▲/▼] to select the source [HDMI], then press [OK] to connect.

**ANT2**  Connecting a satellite antenna.

**HDMI**  Connect an HDMI cable from an external A/V equipment.

Some devices such as DVD player require HDMI signal to be set to output in the device's settings. Please consult your device user manual for instructions. Please note that the HDMI connector provides both video and audio signals, it's not necessary to connect an audio cable.

1. Press [Source] button, when the list of Input Source appears, press [▲/▼] to select the source [HDMI], then press [OK] to connect.

**SCART**  Connect the Scart cable from an external A/V Device.

1. Press [Source] button, when the list of Input Source appears, press [▲/▼] to select the source [Scart] and press [OK] to connect.
Making Connections

USB
Connect the USB devices such as hard drives, USB sticks and digital cameras for browsing photos, listening music and watching recorded movies. At the same time update is also an easy thing and will be done just by plugging the USB with the updating files into the same interface.

![USB Connection Diagram]

NOTES
- When connecting a hard disk or a USB hub, always connect the mains adapter of the connected device to the power supply. Exceeding a total current consumption may result in damage. The maximum current consumption is 500mA.
- For individual non-standard high-capacity mobile hard disk, if its impulse current is greater than or equal 500mA, it may cause TV-rebooting or self-locking. So the TV does not support it.
- The USB port supports a voltage of 5V.
- The maximum supported storage space of the hard disk is 1T.
- If you want to store the video streaming of a DTV program, the transfer rate of the USB storage device must not be less than 5MB/s. At lease a mobile storage with more than 20G is required to Timeshift and record a 2.5 hour HD video.

PC
Connect a VGA cable and an audio cable from the PC.
- Press [Source] button, when the list of Input Source appears, press [▲/▼] to select the source [PC] and press [OK] to connect.

![PC Connection Diagram]
**COMMON INTERFACE**

Insert the CI+ module for watching scrambled services like pay-tv channels or some HD channels.

**NOTES**

- Before you insert/remove the CI+ module, ensure that the TV is switched off. Then insert the CI card into the CI+ module in accordance with the Service Provider’s instructions.
- Do not repeatedly insert or remove the Common Access Module as this may damage the interface and cause a malfunction.
- You must obtain a CI+ module and card from the service provider of the channels you want to watch.
- Insert the CI+ module with the SmartCard in the direction marked on the module and SmartCard.
- CI+ is not supported in some countries and regions; check with your authorized dealer.

**OPTICAL**  
Connect to an external digital audio device.

Before connecting a digital audio system to the OPTICAL jack, you should decrease the volume of both the TV and the system to avoid that the volume suddenly become bigger.

**HEADPHONE**  
Connect Headphone for audio out of the TV.
Making Connections

**YPbPr**  Connect a component cable and an audio cable from an external A/V Device.

The component output ports Y, P_b and P_r on the VCD or DVD can sometimes be identified as Y, C_b and C_r.

- Press [Source] button, when the list of Input Source appears, press [▲/▼] to select the source [YPbPr] and press [OK] to connect.

**AV**  Connect the Composite cable from an external A/V Device.

Use the audio and video cables to connect the external A/V device’s composite video/audio jacks to the TV’s jacks. (Video = yellow, Audio Left = white, and Audio Right = red)

- Press [Source] button, when the list of Input Source appears, press [▲/▼] to select the source [AV] and press [OK] to connect.
Remote Control

- **Power button**
- **Remote sensing Window**
- **Available source selection**
- **Zoom image**
- **Mute the sound**
- **Set the sleep time**
- **Select Audio language**
- **Display the subtitle content of the signal**
- **Fast access to your saved favorite programs**
- **Red, Green, Yellow and Blue are used in media mode**
- **Exit: Exit all menu display**
- **Enter or confirm the operation, ▲/▼/◄/► Up/Down/Left/Right**
- **Electronic program guide**
- **Picture mode selecting**
- **Volume Up / Volume Down**
- **1,2,...numbers: For direct channel access**
- **To return to the last view program**
- **Text, Size, Reveal, Hold, Index, Subpage (refer to teletext function)**
- **Play/ Pause, Stop, etc. are used in media mode**

**Remote Control Features:**
- **Switch to DTV Radio program**
- **Analog / Digital TV**
- **Select USB-Digital Media player mode**
- **Mono/Stereo operation, Audio select button**
- **Display the main menu/ Back menu display**
- **Display informations**
- **Channel Up / Channel Down**
- **Sound mode selecting**
- **Freeze picture**

**Buttons:**
- **Media**
- **Sleep**
- **Language**
- **Subtitle**
- **FAV**
Remote Control

Installing Batteries in the Remote Control

1. Slide the back cover to open the battery compartment of the remote control.
2. Insert two AAA size batteries. Make sure to match the (+) and (-) ends of the batteries with the (+) and (-) ends indicated in the battery compartment.
3. Close the battery compartment cover.

1. Gently push and slide  
2. Insert the batteries  
3. Gently push and slide

NOTES
- Product image is only for reference, actual product may vary in appearance.
- Dispose of your batteries in a designated disposal area. Do not throw the batteries into a fire.
- Do not mix battery types or combine used batteries with new ones.
- Remove depleted batteries immediately to prevent battery acid from leaking into the battery compartment.
- If you do not intend to use the remote control for a long time, remove the batteries.
- Batteries should not be exposed to excessive heat, such as sunshine, heat registers, or fire.
- Battery chemicals can cause a rash. If the batteries leak, clean the battery compartment with a cloth. If chemicals touch your skin, wash immediately.

Remote Control Operation Range

1. Point the remote control at the TV within no more than 5 metres from the remote control sensor on the TV and within 60° in front of the TV.
2. The operating distance may vary depending on the brightness of the room.
Features, appearance and specifications are subject to change without notice.
